

Disclosure

As a part of the continuing commitment to comply with applicable laws, the following information is provided under intentionally added chemical ingredient-disclosure requirements. A product which contains certain chemicals on the California “designated list” in the handle of the product or in any product surface that comes into contact with food, foodstuffs, or beverages shall list the presence of such chemicals. The California “designated list” means the list of chemicals identified as candidate chemicals that exhibit a hazard trait or an environmental or toxicological endpoint that meets the criteria specified in regulations adopted by the Department of Toxic Substances Control.

These chemicals are included in the product for a variety of reasons including the composition of the materials themselves, strengthening or bonding agents, heat conduction, durability, nonstick features, etc.

This product contains certain chemicals as listed below. For more information about chemicals in this product, visit this site and review the below list.

Microwave Oven for Solo
